Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 16 October 2007.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

Response to Amendment

1. Amendment filed on 10/16/2007 including amendments to Specification and claims are entered. Applicant has amended claims 4,6,7,12,14,15,20,22,23. Claims 8, 16 and 24 were previously canceled. Claims 1-7, 9-15, 17-23 are pending.

Response to Arguments

2. Applicant's arguments, see Remarks pages 14-15, filed 10/16/2007, with respect to rejection of claims 1-7, 9-15, 17-23 under 35 USC 101 have been fully considered and are persuasive. The rejection of claims 1-7, 9-15, 17-23 under 35 USC 101 has been withdrawn.

In view of current amendments made to claims 4,6,7,12,14,15,20,22,23, rejection of these claims under 35 USC 112, second paragraph, is withdrawn.

Double Patenting

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422

Art Unit: 3625

F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-7, 9-15, 17-23 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over (i) claims 2-8, 10-16 and 18-27 claims of copending Application No. 09/902928 (ii) claims 1-23 of copending application 09/858251, (iii) claims 1-24 of copending application 09/903075 and (iv) claims 1-21 of copending application 09/955264. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims are directed to the same concept of selecting characteristics of an auction to be conducted, selecting a relevant bidding model for said auction, estimating a structure of said auction, predicting a bidding behavior of said auction and evaluating said outcome of said auction.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Note: The examine notes that the applicant has already submitted a Terminal disclaimer in the copending application 09/955264 against the other four co-pending applications and during a telephone interview with attorney Mr. John Wagner on

12/3/2007 and 12/18/2007 requested for submitting a Terminal Disclaimer for the instant application against the other four copending applications

Conclusion

4. The prior art made of record does not disclose estimating structure of the auction to be conducted by expressing unobservable variables in terms of observable bids, wherein said unobservable variables are expressed in terms of observable bids by inverting a selected bidding model and evaluating outcome of the auction to be conducted, wherein said evaluating comprises selecting an optimal preference policy from a plurality of candidate preference policies for treating different groups of bidders differently, wherein said optimal preference policy comprises the candidate preference policy within a plurality having the highest ranking; and outputting said optimal preference policy to a participating entity in an auction said outputting performed prior to conducting said auction.
